WARNING: Read Before Using Your Sega Dreamcast Video Game System

CAUTION
Anyone who uses the Dreamcast should read the operating manual for the software and console before operating it. A responsible adult should read these manuals together with any minors who will use the Dreamcast before the minor uses it.

HEALTH AND EPILEPSY WARNING
Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure. If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using Sega Dreamcast.

In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitching, loss of consciousness, disorientation, any involuntary movement or convulsion, IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.

To reduce the possibility of seizures, the operator must follow these safety precautions at all times when using Dreamcast:
- Sit a minimum of 5.5 feet away from the television screen. This should be as far as the length of the controller cable.
- Do not play if you are tired or have had too much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

OPERATING PRECAUTIONS
To prevent personal injury, property damage or malfunction:
- Before removing disc, be sure to stop it properly.
- The Sega Dreamcast GD-ROM disc is intended for use exclusively on the Sega Dreamcast video game system. Do not use this disc in anything other than a Dreamcast console, especially not in a CD player.
- Do not allow fingerprints or dust on the disc.
- Do not bend the disc. Do not touch, smudge or scratch its surface.
- Do not modify or change the central hole of the disc or use a disc that is crooked, modified or repaired with adhesive tape.
- Do not press on or apply anything to either side of the disc.
- Store the disc in its original case and do not expose it to high temperatures and humidity.
- Do not leave the disc in direct sunlight or near a radiator or other source of heat.
- Use lens cleaner and a soft dry cloth to clean disc, wiping gently from the center to the edge. Never use chemicals such as benzene and paint thinner to clean disc.

PROJECTION TELEVISION WARNING

INTRODUCTION

Thank you for purchasing Sega Sports NCAA College Football 2K2.

The power of the Dreamcast brings college football to life as never before. From the creators of incredible games like NFL 2K1 and NBA 2K1, comes the quintessential college experience with NCAA 2K2.

In Season Mode, you will get to compete in the regular 2001 schedule all the way through the bowl games and the National Championship, if your team is good enough. Plus, full stats are compiled on every player so you won't be able to take any games off if you expect your star to win the Heisman Trophy.

With Legacy Mode, you will take over the responsibilities of coach and athletic director. Do you have what it takes to build a powerhouse year after year? It's your chance to prove it.

Then there is Exhibition Mode, where you can pit any two teams against each other for a quick game. And Tutorial Mode - that's where you can learn the ins and outs of the game right on the screen. There's even a scrimmage mode where you can practice your plays before the big game on Saturday rolls around.

Oh, and did we mention network play? NCAA 2K2 joins the impressive list of Sega Sports titles that offer what no other console game can match - multiple players over the Internet. With up to four players per console, NCAA 2K2 is the first 3-player network college football game in history.

This isn't the same old college football you're used to. This is NCAA 2K2. Do you have what it takes to tame the game? Can you go online and grind it out with real live opponents? The only way to tell is to get out of the locker room and onto the field - that's where heroes and legends are made.

STARTING THE GAME

NOTE: Sega Sports™ NCAA 2K2 is a one to four-player game. Before turning the Dreamcast Power ON, connect the controller(s) or other peripheral equipment into the control ports of the Dreamcast. To return to the title screen at any point during gameplay, simultaneously press and hold the A, B, X, Y, and START buttons. This will cause the Dreamcast to soft-reset the software and display the title screen.

Control Summary

NCAA 2K2 is designed with analog functionality in mind. The Sega Dreamcast analog controls provide a fuller range of motion and add to the overall depth of the game. By going to the Game Options > Controller menu however, you can change the control scheme to use the D-Pad instead. Either way is acceptable, it's a matter of personal preference.

To highlight and select specific menu items, press the Analog Stick (or D-Pad) in the direction of the menu item until it highlights. If you have questions when viewing most menus and screens, press the Y button for Command Help.
**Coach's Corner: Getting Help**

If at any time you need help navigating through the menus, press Y and a help screen will help you find the way.

NOTE: You can also call plays from your VMU (vase Game Options Menu) on page 16.1. With VMU Play Calling, controls for selecting plays are the same as if you used the main screen. If you press the X button (flip play formation) a two-way arrow icon will appear on the main screen to indicate a successful play flip.

When you are playing a game with more than one person per team (e.g., two-on-two), either player on the team can select a play. If you are on offense, the first player to enter a play will be the quarterback. Be careful though, both players will be able to select the play at the same time, so you will want to designate who the playcaller will be.

Coach's Corner: Bluff Mode

To hide the play you're calling, hold down the A button and keep it held down. You can then scroll through other pages of plays to hide your play. When you release the A button, it will call the play you originally selected.

Coach's Corner: Play Calling

Need a little help selecting a play? Then let either the offensive or defensive coordinator make the call. During play calling, press the A button once and NBA2K2 2K2 will select a play for you. Press the A button again to accept the selection.

**RUNNING THE OPTION**

Option plays are indicated by the color yellow in your playbook. (If your team can run the option, that is.) On an option play, the QB will fake a handoff to the Running back and then take off left or right (depending on the play). Press the A button to pitch the ball to the option running back. Hold the A button after the snap to give the ball to the upback.

**QUARTERBACK SCRAMBLE**

Even the best offensive line is going to let a defender through from time to time. So when you feel the pressure coming, get the quarterback away with a scramble. Hold down the R-Trigger and the QB becomes a runner. (Don’t forget to let go of the R-Trigger if you want to make a pass.) Once you cross the line of scrimmage, you can no longer make a pass so you can let go of the R-Trigger and control the QB as if you were a running back on a running play.

**ON OFFENSE**

**MAXIMUM PASSING**

If you want total control over your offensive results, turn on Maximum Passing by pressing the A Button on the Controller Assignment Screen (see page 20). With Maximum Passing Activated, you can lead your receivers to thread the ball in front of, behind and around the defenders. To use Maximum Passing, press the Analog Stick in the direction in which you want to adjust the throw. Press a little for a small adjustment, press harder for a bigger adjustment. For example, to lead the receiver, press Up on the Analog Stick. To throw behind and to the left of a receiver, press Down and Left.

**Coach’s Corner: Passing**

There are actually three levels of passing strength in NCAA 92K2. Tapping the pass button tabs the ball to the receiver – that’s good for letting a receiver run underneath it, but gives time for the defenders to close on the ball. Holding the pass button down longer (making sure to release it before the ball leaves the quarterback’s hand) will result in a normal throw. Finally, holding down the button past the ball’s release will result in a bullet-pass – great for when you have to get it to the receiver quickly.

**DEFENSIVE LINE**

NCAA 2K22 contains a series of special moves for the defensive linemen, including spin, club, under and swim moves. Depending on a player's position and attributes, one of the moves will be performed when the special move button is pressed. To execute a move, you must be engaged in a block.

3. Press A again to stop the power meter as close to the top as possible for a booming kick.

EXHIBITION PLAY

Exhibition Play

Now that you've got all of the basics down, let's head on out to the field and throw the pigskin around. Here's the flow of all the menus and screens you'll see as you set up an Exhibition game.

CHOOSING TEAMS

Note: the team on the left is the visitor, and the team on the right is at home.

To make it easier to find the team you are looking for, the teams are grouped by conference. Press the X button or A to scroll through the list of conferences. Then move down [Analog stick or D-Pad] to select your team (using the X and A buttons again). For a change of pace, you can also change the playbook your team is using. Want to see what your team would look like running an option offense, then select an option school like Nebraska.

CONTROLLER ASSIGNMENT SCREEN

Once you've selected the teams, the Controller Assignment screen appears. Press the analog stick or D-Pad LEFT / RIGHT to align your controller with the team you wish to command. If you wish to use Maximum Passing (and you should to get the ultimate NCAA 2K2 experience), press the A Button to toggle it on. When everything is set the way you want, press the Start Button to advance to the game.

COIN TOSSES

The visiting team gets to call it. The winner of the toss gets to choose whether to kick or receive. The loser chooses which goal to defend. Following the coin toss, the Special Teams play calling screen appears.

SELECTING YOUR PLAYS

The National Championship is built around the talents of the student athlete, teamwork, and the coach's playbook. This isn't old school AI where you could call the same plays over and over again. To win, you are going to have to mix up your plays on offense and defense. Play to your team's strengths. If you have great running backs, you can gamble more with blizzards and man-to-man coverage. If you have a great running back, then pound the ball out on the ground. For the offensive playbook, passing plays are displayed in blue, running plays are displayed in red, and option plays are displayed in yellow.

Pause Menu

The Pause Menu allows you to stop gameplay and call a time out, select youraudibles, make substitutions, view the replay, change the game options and controller configuration, adjust the game camera angles, and view the current stats. When you are playing with more than one person, the player who pressed the Start Button to enter the Pause Menu has control of selecting all of the above options.
GAME MODES

Game Modes

From the Main Menu, you've got a ton of choices. Here is a quick description of all of the different game modes that NCAA 2K2 has to offer.

SCRIMMAGE

Practice makes perfect! Head on over to the practice field to learn the formations and plays of your favorite team. Fine tune the running game, learn the timing of your passing routes, and find your defensive positioning. Once you're into Scrimmage Mode, you have three different styles of practice.

- Special Move Practice: Get a feel for the controller and how to perform special moves.
- Full Scrimmage: Line up against another team.
- Offense Only: Work out the kinks in your offense without a defense to get in the way.
- Scrimmage Line: Where you will be starting the play.
- Direction of Play: North (up the screen) / South (down the screen)
- Randomize Defense: Set what type of defensive formation the CPU can call.
- Randomize Offense: Set what type of offensive formation the CPU can call.
- Offense Play Type: Set Offense to practice Pass, Run or Both.
- Randomize Down: Select the play situation.
- Defensive Play: Pick a specific defensive play to practice against.
- Offensive Play: Pick a specific offensive play to practice against.

TOURNEY

Choose either to play in a new tournament or load a previously saved one. Select your teams and determine human or CPU control for each team of the 4, 8 or 16 that you are using.

SEASON

Take your team through the regular season schedule. If your team does well enough you will get invited to a postseason bowl game. And if you are ranked high enough, you could even wind up competing for the National Championship.

Coach's Corner: The Heisman

College Football's premier award is the Heisman Trophy - and what would NCAA 2K2 be without handing out this impressive piece of hardware. You'll have to be on your game week in and week out to win the hearts of the voters, so never let up - pile on the points.
LEGACY

Legacy Mode is a lot like Season Mode. You pick your team and go through a full season. But it's at the end of the season where Legacy Mode is different. After the post season is complete, you will have to go out and recruit new players to come to your program. You have five weeks to recruit players and five meadings per week to do. Can you convince the top talent to play football at your school? A lot of things will go into a player's decision – geography, past performance, what bowl game you got invited to, etc.

When recruiting is done, you will move to the spring practice season. Here you will be able to decide what your team will work on and how to better improve your team by boosting the strength, speed and endurance numbers of all of your players.

QUICK START

NCAA 2K2 will pick two teams at random for a quick exhibition game.

TUTORIAL

Learn right from NCAA 2K2. The game will guide you with on-screen help boxes as you learn how to play NCAA 2K2. This is a great way for new players to learn from the best.
